PATIENT UPDATE | OCTOBER 9, 2026

Progress on Our 2027 Health Insurance Participation

Dear Valued Patient,

We recently wrote to let you know that beginning in January 2027, our physicians and advanced practice providers will practice through **Great Lakes Urology, Great Lakes Pediatric Urology, and Great Lakes Oncology**. We are writing today to share an update on our progress.

OUR CONVERSATIONS WITH HEALTH INSURANCE COMPANIES

This week, we reached out again to every health insurance company we currently participate with to continue our discussions about participation in 2027. These conversations are ongoing, and our team is working diligently to reach agreements that allow us to keep caring for as many of our patients as possible. While no new agreements have been finalized since our last letter, we remain committed to this work and will share news with you as soon as agreements are in place.

At this time, our confirmed participation for 2027 remains with **Univera Healthcare, traditional Medicare, and traditional Medicaid**.

NEW RESOURCES ON OUR WEBSITES

We have made enhancements to our practice websites to help you stay informed. Each site now includes the following pages:

- The Insurance Resource page has the latest information on our participation status and answers to common questions.
- The Updates page shares our most recent news.
- The Patient Resources page provides contact information for local insurance brokers, should you wish to speak with one.

OUR COMMITMENT TO YOU

Your physicians, our locations, and our dedication to the highest quality care remain the same. We are grateful for your patience and your trust as we work through this transition, and we look forward to continuing to care for you and your family in 2027 and beyond.

Sincerely,

Kent Chevli, MD
President
